#### Integration of Domestic Petroleum Business

(Partial Transfer of Mitsubishi Corporation's Domestic Petroleum Products Business Through Absorption-Type Company Split, and Merger of Wholly Owned Subsidiaries)

Mitsubishi Corporation ("MC") is in the process of studying the merger of two of its wholly owned domestic petroleum products business subsidiaries, and the partial transfer of its domestic petroleum products sales business to the newly merged company through a company split.

This integration project is still pending a resolution by MC's Board of Directors, and its details will be announced immediately upon the Board's resolution.

A notice about this project under study that was submitted to the London Stock Exchange Regulatory News Service on June 19, 2015 due to an error in the document filing process, has subsequently been replaced by a Replacement Notice.
