Part I: Financial Results

The impact of foreign exchange fluctuations has been calculated by using the average US dollar, euro and British pound foreign exchange rates for the first quarter of fiscal 2014 to translate the current period's revenue outside Japan into yen.

1. Explanation of Financial Results

FY2015 First-Quarter Financial Results

(Billions of yen)

	1Q FY2014 4/1/14- 6/30/14	1Q FY2015 4/1/15- 6/30/15	Change vs. 1Q FY2014	Change (%)

<Profit or Loss>

Consolidated revenue for the first quarter of fiscal 2015 was 1,065.0 billion yen, essentially unchanged from first quarter of fiscal 2014. Revenue in Japan declined by 3.1%. Although revenue from system integration services and server-related revenue increased, revenue from network products and PCs decreased. Revenue outside of Japan rose 3.6%. Revenue from network products in North America and PCs in Europe declined, however, results benefited from foreign exchange movements. The decline in the value of the yen versus the US dollar served to increase revenue by about 30.0 billion yen compared to the first quarter of fiscal 2014. The ratio of revenue outside Japan was 42.6%, an increase of 1.7 percentage points compared to the same period in the prior fiscal year.

Fujitsu recorded an operating loss of 27.3 billion yen, representing a deterioration of 34.6 billion yen compared to the first quarter of fiscal 2014. In addition to the impact of lower revenues from network products and PCs, there was the negative impact of higher procurement costs in Europe for US dollar-denominated components stemming from the weakening of the euro against the US dollar, and there were one-time expenses recorded to cover the costs of reallocating employees and others in the network business in Japan.

Net financial income was 1.8 billion yen, an increase of 0.7 billion yen from the same period in fiscal 2014 resulting primarily from a net gain on foreign exchange. Income from investments accounted for using the equity method, net, was 8.6 billion yen, an increase of 6.5 billion yen from the first quarter of fiscal 2014. Fujitsu recorded a dilution gain from changes in equity interest stemming from an offering of shares of an affiliate on China's Shenzhen Stock Exchange. In addition, the system LSI device design and development business was transferred to an affiliate (Socionext Inc., which commenced operations in March 2015, with a ratio of voting rights as follows: 40% Fujitsu, 20% Panasonic Corporation, and 40% Development Bank of Japan, Inc.).

As a result, the loss before income taxes was 16.8 billion yen, representing a deterioration of 27.2 billion yen from the first quarter of the previous fiscal year.

The loss for the period attributable to owners of the parent was 18.9 billion yen, representing a deterioration of 25.7 billion yen from the first quarter of fiscal 2014.

<Results by Business Segment>

Information on fiscal 2015 first-quarter consolidated revenue (including intersegment revenue) and operating profit broken out by business segment is presented as follows.

Technology Solutions

(Billions of yen)

Revenue in the Technology Solutions segment amounted to 718.8 billion yen, an increase of 1.5% from the first quarter of fiscal 2014. Revenue in Japan rose 1.2%. In the Services sub-segment, revenue from system integration services rose on higher spending by customers in the public sector and financial services sector, and revenue from infrastructure services was also solid. In the System Platforms sub-segment, however, although server-related revenue rose, primarily from higher revenue from x86 servers, revenue from mobile phone base stations and other network products declined due to low first quarter capital spending by customers. Revenue outside Japan increased 2.0%. In the Services sub-segment, revenue from the Americas was weak, but revenue rose in Australia and Asia. The impact of the weaker yen compared to the first quarter of fiscal 2014 also contributed to higher revenue. In the System Platforms sub-segment, however, revenue from optical transmissions systems in North America declined as investments by telecommunications carriers continued to be constrained with respect to relevant segments of Fujitsu's business.

	First quarter FY2015	Change vs. 1Q FY2014
Revenue	718.8	1.5%
Japan	423.1	1.2%
Outside Japan	295.7	2.0%
Operating profit	-4.0	-15.4
[Operating profit margin]	[-0.6%]	[-2.2%]
Revenue;		
Services	611.2	5.3%
System Platforms	107.6	-15.6%
Operating profit;		
Services	9.9	-3.2
System Platforms	-13.9	-12.2

The segment posted an operating loss of 4.0 billion yen, representing a deterioration of 15.4 billion yen compared to the same period in fiscal 2014. In the Services sub-segment, despite the positive impact of higher sales, operating profit declined because of higher expenses to expand sales in the internet service provider business, among other factors. In the System Platforms sub-segment, operating profit declined due to lower revenue and on account of one-time expenses of approximately 5.0 billion yen to cover the costs of reallocating employees and other factors in the network business in Japan.

Ubiquitous Solutions

(Billions of yen)

Revenue in the Ubiquitous Solutions segment was 243.2 billion yen, down 9.5% from the first quarter of fiscal 2014. Revenue in Japan was down by 14.8%. For PCs, revenue declined as the cycle of higher demand for upgrades resulting from the ending of support for an operating system had peaked in the first quarter of the prior fiscal year. Revenue outside Japan increased 1.5%. Although there was a decline in unit sales of PCs in Europe, revenue from the Mobilewear sub-segment increased, primarily in Europe and Asia. The results also benefited from foreign exchange movements.

	First quarter FY2015	Change vs. 1Q FY2014
Revenue	243.2	-9.5%
Japan	155.1	-14.8%
Outside Japan	88.1	1.5%
Operating profit	-7.6	-16.3
[Operating profit margin]	[-3.1%]	[-6.3%]

The Ubiquitous Solutions segment posted an operating loss of 7.6 billion yen, representing a deterioration of 16.3 billion yen compared to the same period in fiscal 2014. In addition to the negative impact of lower revenue from PCs, the decline in the values of the euro and the yen against the US dollar

caused procurement costs for US dollar-denominated components to rise in Europe and Japan.

Device Solutions

Revenue in the Device Solutions segment amounted to 149.9 billion yen, up 10.9% from the first quarter of fiscal 2014. In Japan, revenue increased 8.7%. Revenue from LSI devices increased, primarily from devices used in smartphones. Outside Japan, revenue rose 13.1%. Revenue from both LSI devices and electronic components benefited from foreign exchange movements.

(Billions of yen)

	First quarter FY2015	Change vs. 1Q FY2014
Revenue	149.9	10.9%
Japan	73.8	8.7%
Outside Japan	76.0	13.1%
Operating profit	10.7	7.3
[Operating profit margin]	[7.1%]	[4.6%]

The segment posted an operating profit of 10.7 billion yen, up 7.3 billion yen from the first quarter of fiscal 2014. In addition to the impact of lower fixed costs stemming from last fiscal year's restructuring of the production lines for standard logic LSI devices, the value of US dollar-denominated exports rose because of the decline in the value of the yen against the US dollar.

Other/Elimination and Corporate

This segment recorded an operating loss of 26.3 billion yen, representing a deterioration of 10.1 billion yen from the first quarter of fiscal 2014. The higher loss is attributable to an expansion of strategic investments in such fields as next-generation cloud as IoT* usage platforms and future healthcare services.

*IoT (Internet of Things): A system in which, in addition to PCs and servers, for example, a wide variety of things are connected to the Internet and exchange information.

2. Explanation of Financial Condition

(1) Assets, Liabilities and Equity

(Billions of yen)

	Year-end FY2014	End of 1Q FY2015	Change vs. year-end FY2014
Total assets	3,271.1	3,149.2	-121.8
Total liabilities	2,336.7	2,240.9	-95.8
Total equity	934.3	908.3	-26.0
Total equity attributable to owners of the parent	790.0	763.2	-26.8

Reference;

Cash and cash equivalents	362.0	378.3	16.3
Interest-bearing loans	578.4	607.6	29.1
Net interest-bearing loans	216.4	229.2	12.8
D/E ratio (times)	0.73	0.80	0.07
Net D/E ratio (times)	0.27	0.30	0.03
Equity attributable to owners of the parent ratio (%)	24.2%	24.2%	- %

Consolidated total assets at the end of the first quarter of fiscal 2015 were 3,149.2 billion yen, down 121.8 billion yen from the end of fiscal 2014. Inventories increased in preparation for expected sales, particularly in the services business, but trade receivables declined on collections from the concentration of revenue booked toward the end of prior fiscal year.

Consolidated total liabilities amounted to 2,240.9 billion yen, a 95.8 billion yen decrease compared to the end of fiscal 2014. The decline was attributable to payment of trade payables relating to the concentration of sales at the end of the prior fiscal year, as well as a lower amount of other payables because of payments made for salary bonuses. The balance of interest-bearing loans increased to 607.6 billion yen, as a portion of working capital was financed with borrowings.

The balance of total equity was 908.3 billion yen, a decline of 26.0 billion yen from the end of fiscal 2014. Retained earnings declined because of the loss recorded for the quarter and payment of the year-end dividend. Equity attributable to owners of the parent ratio was 24.2%, unchanged from the end of fiscal 2014.

(2) Cash Flows

(Billions of yen)

	1Q FY2014	1Q FY2015	Change
I Net cash provided by operating activities	29.5	29.3	-0.1
II Net cash used in investing activities	-49.3	-28.3	20.9
I+II Free cash flow	-19.7	0.9	20.7
III Net cash provided by financing activities	94.8	12.1	-82.7
IV Cash and cash equivalents at end of period	375.0	378.3	3.3

Net cash provided by operating activities in the first quarter amounted to 29.3 billion yen, essentially unchanged from the first quarter of fiscal 2014. Profit for the period before income taxes deteriorated, but there were improvements in working capital efficiency.

Net cash used in investing activities was 28.3 billion yen, primarily reflecting capital expenditures in datacenters. Compared to the same period in fiscal 2014, net outflows declined by 20.9 billion yen. In the first quarter of fiscal 2014, time deposits were placed to utilize temporary surplus funds.

Free cash flow, the sum of cash flows from operating and investing activities, was 0.9 billion yen, representing an increase in cash inflows of 20.7 billion yen compared with the first quarter of fiscal 2014.

Net cash provided by financing activities was 12.1 billion yen. Compared to the first quarter of fiscal 2014, cash inflows declined by 82.7 billion yen. Cash inflows declined because, in the first quarter of fiscal 2014, Fujitsu issued 70.0 billion yen in straight bonds, in part to finance the redemption of bonds maturing later in the fiscal year.

As a result of the above factors, cash and cash equivalents at the end of the first quarter of fiscal 2015 were 378.3 billion yen, an increase of 16.3 billion yen compared to the end of fiscal 2014.
