

The Corporate Governance of Mitsubishi UFJ Financial Group is described below.

Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

Mitsubishi UFJ Financial Group, Inc. (MUFG) is a holding company that encompasses several subsidiaries including The Bank of Tokyo-Mitsubishi UFJ, Ltd., Mitsubishi UFJ Trust and Banking Corporation, and Mitsubishi UFJ Securities Holdings Co., Ltd. MUFG's management has determined that designing and executing a corporate governance framework is one of the most important issues in achieving its medium- to long-term goal of being "the world's most trusted financial group," as outlined in its Corporate Vision.

Since its establishment, the Company has worked to build a stable and effective corporate governance structure, putting emphasis on ensuring external oversight. In June 2015, the Company transitioned to the "company with three committees" governance structure. The functions of oversight and execution in the holding company are separated, thereby strengthening the oversight function of the Board of Directors and the committee system has also been reorganized for more effective governance. We are aiming for a governance framework that will be more familiar and transparent to overseas stakeholders, in line with our status as a G-SIB (Global Systemically Important Bank).

The Corporate Vision below has been formulated in order to clearly define MUFG's Group mission and what kind of company it aims to be, and it will serve as a common guide for meeting the expectations of customers and society. Officers and employees at MUFG have three common values: "Integrity and Responsibility," "Professionalism and Teamwork," and to "Challenge Ourselves to Grow" and through these it aims to "be the world's most trusted financial group." It has also established "Principles of Ethics and Conduct" as specific standards for decision-making and conduct which adhere to the Corporate Vision.

Principles of Ethics and Conduct

These Principles of Ethics and Conduct establish clear and consistent standards for all MUFG employees to guide decisions and actions. They reflect and support the MUFG Corporate Vision. The principles are organized in three sections.

Chapter 1 Customer Focus

We place our customers at the center of our thinking and act to meet their trust and confidence. MUFG is able to thrive today because of the trust and confidence that customers have placed in us -the result of years of fair, transparent, and honorable dealings. Instead, we place a premium on supporting long-term, sustainable relationships with our customers to help them meet their goals.

Chapter 3 Ethical and Dynamic Workplace

We are committed to creating a working environment that fosters mutual respect among MUFG employees, supports the full expression of our individuality as professionals, promotes the power of teamwork, honors diversity, transcends differences, and embraces new challenges.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

MUFG has determined that the design and operation of a corporate governance framework based on the concepts outlined above is one of its most important issues. MUFG implements all of these individual principles in compliance with MUFG Corporate Governance Policies.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1-4]

1. Strategic shareholdings policy

The circumstances surrounding strategic shareholdings ⁽¹⁾ have changed greatly in recent years due to, among other things, the tightening of international financial regulations and the introduction of the Corporate Governance Code in Japan.

Based on these changes, MUFG has adopted a basic policy that its Group banks ⁽²⁾, taking into account shareholding risk, capital efficiency and international financial regulations, shall reduce the amount of shares held for the purpose of strategic investment ⁽³⁾, following sufficient consultation with the relevant corporate business clients.

Shares held for the purpose of strategic investment will be examined for their significance and economic rationale from the perspectives of our corporate business clients' growth and earnings and the strengthening of business relations. We shall proceed with selling those shareholdings for which there is insufficient rationale, after securing an understanding of the relevant corporate business clients. Even where there is sufficient rationale, we may sell those shareholdings in accordance with our basic policy of reducing strategic shareholdings, taking into account, among other things, the market environment and our business and financial strategy.

In fiscal year 2016, MUFG reduced its strategic shareholdings by approximately 149 billion yen (simple combined revenue of Group banks, acquisition cost basis), and its ratio of equity holdings at acquisition price over Tier1 capital declined from 17.9% to 16.6% as of March 31, 2017. MUFG aims to lower this to around 10% by the end of the next Medium-term Business Plan (March 31, 2021).

Note:

⁽¹⁾ "Strategic shareholdings" refers to shares excluding trading investments (shares of subsidiaries and affiliates are not included). These are classified into three categories: 1. strategic investments, 2. business strategy and 3. revitalization support, with most falling under 1.

⁽²⁾ "Group banks" refers to The Bank of Tokyo-Mitsubishi UFJ, Ltd. and Mitsubishi UFJ Trust and Banking Corporation, consolidated subsidiaries of MUFG.

⁽³⁾ "Shares held for the purpose of strategic investment" refers to shares held for the purpose of increasing the medium- to long-term economic profits of MUFG and Group banks through maintaining and expanding comprehensive business relations with our corporate business clients.

2. Examination of significance and economic rationale of shareholdings

At each Group bank, all shares held for the purpose of strategic investment are being confirmed for their significance and economic rationale (risk-return) over the medium- to long-term from the perspectives of our corporate business clients' growth and earnings and the strengthening of business relations. Based on Principle 1-4 of the Corporate Governance Code, the most important strategic shareholdings ⁽⁴⁾ are examined by MUFG's Board of Directors.

Economic rationale is examined based on MUFG's overall business RORA, which is based on its ROE target, as a target value.

The results of the March 31, 2017 validations will be updated in mid-August, 2017

The results of the March 31, 2016 validations are as follows.

- We confirmed the validity of the significance of these shareholdings as all of the validation targets were held with the aim of enhancing the medium- to long-term economic interests of MUFG and Group banks. Regarding economic rationality, the overall business RORA of all of the verification targets as a whole exceeded the target value. ⁽⁵⁾
- By company, approx. 80 percent of business partners exceeded the target value. ⁽⁶⁾ The approx. 20 percent that fell below the target value are aiming to improve profitability, but if they do not improve within a set period, we will consider selling.

Note:

⁽⁴⁾ The aggregate market value of validation targets held as of March 31, 2016 was approx. 3.2 trillion yen (book value: approx. 1.8 trillion yen), covering approx. 70 percent of the total market value of the (listed) equities held by Group banks for the purpose of strategic investment.

^{(5) (6)} In the previous fiscal year, whether a business partner exceeded the target profitability value was determined on either a parent company basis or a group basis, but from this fiscal year it is being determined on a group basis for each business partner. As a result, both this fiscal year and last fiscal year approx. 80 percent of business partners exceeded the target value, but for listed equities that were not validation targets, last fiscal year approx. 80 percent of business partners exceeded the target value, and this fiscal year approx. 70 percent exceeded the target value.

3. Standards with respect to the exercise of voting rights

In order to ensure the appropriate exercise of voting rights of shares held for the purpose of strategic investment, MUFG and Group banks will make comprehensive decisions on every proposal for the agenda of a shareholders meeting after confirming the following two points:

(1) Will it increase the medium- to long-term corporate value and lead to continuous growth of the relevant corporate business client?

(2) Will it increase the medium- to long-term economic profits of MUFG and Group banks?

Significant agenda of a shareholders meeting that could have material impact on medium- to long-term improvement of corporate value of the relevant corporate business client and economic benefit for MUFG and Group banks will be determined through communication with the relevant corporate business client, etc. as necessary. Following agendas are considered significant by MUFG and Group banks:

- Agenda on disposal of surplus (when disposal significantly lacks balance with financial soundness and retained earnings)
- Agenda on election of directors or corporate auditors (when the relevant corporate business client has caused a disgraceful affair or posted a

loss for a certain consecutive period, etc) • Agenda on retirement benefits for corporate auditors, etc

- Agenda on organizational restructure
- Agenda on takeover defense, etc.

The status of the exercise of voting rights of the most important strategic shareholdings will be reported to MUFG's Board of Directors.

[Principle 1.7]

Related party transactions

MUFG has established "MUFG Guidelines for Related Party Transactions" to ensure that transactions between MUFG and its related parties, such as directors and corporate executive officers (related party transactions), do not harm the interests of MUFG. The Guidelines provide, among other things, that transactions with related parties, such as directors and corporate executive officers, require the approval of the board of directors, and that when the board of directors deliberates granting such approval, the relevant director or corporate executive officer shall not participate in that deliberation.

And the result is discussed at the Nominating and Governance Committee and meeting of the Board of Directors.

In addition, the board continues to discuss about its succession plan including for outside directors. As the result, it is deemed to have made steady improvements, such as the way it conducts proposals and discussions, contributions made from directors, and the progress of reform.
 - (2) Upon receiving that the business circumstances are globalized and around 40% of the shareholders, profits, and employees are actually from overseas, MUFG recognizes that the composition of the Board of Directors needs further enhancement, by appointing foreign outside directors to take advantages of their extensive global outlook and dealing with the globalized board. And development in Group governance structure and succession plan and cultivation of human resources for the future management were also recognized as important issues.
- Based on the above, the Board of Directors continuously aims to enhance the effectiveness of its corporate governance structure, responding to the extended expectations of stakeholders, with the aim of facilitating sustainable growth of the Company and increasing its corporate value over the medium- to long-term.

[Auditing Structure]

Appointment of Directors and/or Staff to Support the Audit Committee	Appointed
---	-----------

Matters related to the Independence of Such Directors and/or Staff from Corporate Executive Officers (Shikkoyaku)

The Audit Committee Office was established to assist the Audit Committee in performing its duties and is under the control of the Audit Committee.

Matters including the assigning of employees to provide assistance to the Audit Committee in performing its duties and the independence of those employees are considered in a manner that respects the intention of the Audit Committee.

Cooperation among Audit Committee, Accounting Auditors, and Internal Audit Departments

A structure is in place whereby the Audit Committee receives reports from the Internal Audit Division on important matters, including the results of internal audits and basic policies for planning internal audits.

MUFG holds sessions for exchanging views between the Internal Audit Division, the Audit Committee and accounting auditors and, when required, shares information related to audit measures and audit results. Also, the relationship between Internal Audit, Audit Committee audits and accounting audits, and departments with internal control functions is such that the Internal Audit Division, Audit Committee and accounting auditors conduct audits from a standpoint that is independent of the departments with internal control functions. However, departments with internal control functions cooperate during these audits so that they can be conducted efficiently and appropriately.

Policy on Determining Compensation Amounts and Calculation Methods	Established
---	-------------

Disclosure Policy Determining Remuneration Amounts and Calculation Methods

1. Context of the Policy

The Company's Compensation Committee has prescribed this policy on decisions on the contents of compensation for individual directors, directors, corporate executive officers and executive officers ("Officers, etc.") (the "Policy") in accordance with the provisions of the Companies Act with regard to a company with three committees, etc. The contents of the Policy are as below. In addition, major subsidiaries of the Company have each prescribed a similar policy based on the Policy of the Company.

2. Philosophy and Objective

The MUFG Group, supported by its consolidated strength, provides prime-quality products and services to respond to any and all financial needs, with the aim to "be the world's most trusted global financial group" and win strong support from its customers and society.

In an effort to realize such a management policy, we have decided on this Policy on compensation for officers in order to prevent excessive risk-taking and raise motivation of Officers, etc., to contribute not only to the short-term but also to the medium- to long-term improvement of financial results, thereby enabling sustainable growth and the medium- to long-term enhancement of the enterprise value of the MUFG Group. In addition, this Policy has been prescribed in accordance with the business performance and financial soundness of the Company and the MUFG Group and applicable Japanese and overseas regulations regarding compensation of officers.

3. Compensation Level

We determine the level of compensation for officers that is appropriate for the Company and its subsidiaries taking into consideration the economic and social context, business trend, business environment and financial results of MUFG Group, and human resources markets in the country where the Officers, etc. are appointed and other important factors.

4. Decision-Making Organizations

The Company, as a company with three committees, etc., has established a Compensation Committee. The Compensation Committee comprises independent outside directors ⁽¹⁾ and the director who concurrently serves as president & group CEO and is chaired by an independent outside director. The following matters are determined by the Committee in relation to compensation of Officers, etc.:

Note:

⁽¹⁾ In this Policy, including directors who are not in a concurrent position as executive officer and are highly independent from the execution of the Company's business

(a) The Policy

(b) Contents of the establishment, revision and abolition of the compensation system for the Company's Officers, etc.

(c) Contents of compensation for individual directors and corporate executive officers in accordance with the Policy (when they concurrently serve as an officer and an employee of a subsidiary of the Company, a determination must be made on the total amount including the compensation determined by the subsidiary ; however, the bonus is the standard amount).

Furthermore, the Compensation Committee deliberates and makes proposals to the Board of Directors on the following matters:

(a) Contents of the establishment, revision and abolition of the system regarding compensation for Officers, etc., of the Company's major subsidiaries

(b) Compensation of the chairman, deputy chairman, president & CEO of the Company's major subsidiaries

The specifics of the compensation for individual executive officers in accordance with the Policy are determined by the Executive Committee.

5. Contents of Compensation

In principle, compensation for the Company's Officers, etc., is comprised of three types: "annual compensation", "stock compensation" and "officers' bonuses". Compensation is paid individually by type. The proportion of each compensation type is properly specified based on the philosophy and objective above. Outside directors and directors serving as audit committee members are not eligible to receive stock compensation and officers' bonuses in consideration of the contents of the duties of such officers.

In principle, annual compensation is determined by the position and place of residence of individual Officers, etc. and other related factors. It is paid monthly in cash.

Stock compensation was implemented in fiscal year 2016 as a new medium- to long-term incentive plan in place of the previous compensation involving stock compensation type stock options. We aim to further raise the motivation of Officers, etc., to contribute to the medium- to long-term improvement of the financial results of the MUFG Group and share a common interest with our shareholders, etc. In the stock compensation system, the Company's shares are issued to Officers, etc. using the trust structure shown below:

(a) Performance-Based Portion

The Company's shares ⁽²⁾ corresponding to the "base amount determined depending on the position × performance factor (within the range of 0 to 150%) based on the degree of attainment of performance targets of the medium-term business plan" are issued, in principle, upon the termination of the medium-term business plan. The degree of attainment of performance targets is evaluated using such indicators as consolidated net business profits, profits attributable to owners of parent, market capitalization, and EPS (earnings per share), etc. of MUFG.(b) Non-Performance-Based Portion

The Company's shares ⁽²⁾ corresponding to the "base amount determined depending on position" are issued, in principle, at the time of the retirement of Officers, etc.

Note:

⁽²⁾ Calculated based on the average acquisition cost of the Company's shares through the trusts.

Officers' bonuses are provided with the aim to raise the motivation of Officers, etc., to contribute to the improvement of financial results for each fiscal year. As performance-based compensation, the amount is determined based on the financial results of the MUFG Group and the status of the execution of the duties of the Officers, etc., for the previous fiscal period (within the range of 0 to 150% from the base amount by position). In principle, officers' bonuses are paid annually in cash.

Notwithstanding the foregoing, compensation for Officers, etc., who are hired locally outside Japan is individually designed in order to prevent excessive risk taking, taking into account compensation regulations, compensation practice, the local market rate and other related factors in the relevant overseas region, as well as the job contents and characteristics of the duties of such Officers, etc.

[Supporting system for Outside Directors]

- Management is obligated to provide sufficient information to Directors that relates to Directors' execution of duties. Management shall in principle distribute the Board of Directors' meeting agenda and materials for deliberation prior to meetings to ensure that Directors have the opportunity to understand the content in advance. 3. Reasons for Adoption of Current Corporate Governance System

MUFG transitioned to a company with three committees in June 2015 to further enhance its corporate governance and construct a framework for the future of the Group over the medium- to long-term. MUFG has already worked to enhance its governance framework with a focus on external viewpoints by appointing Outside Directors and establishing a Global Advisory Board composed of experts from overseas and Japan with the function of advising the Executive Committee.

The shift to a company with three committees is part of efforts to enhance Group management and aims to strengthen the Board of Directors' oversight functions through the separation of execution and oversight at the holding company level, to construct an effective and efficient governance framework, that is more comprehensible for overseas stakeholders, as befits a G-SIB (Global Systemically Important Bank). Additionally, MUFG Corporate Governance Policies have been formulated and released publicly to set out the policy and framework of the corporate governance of MUFG.
