--

<Policy>

Remuneration of directors is composed of monthly remuneration and bonuses.

Remuneration is structured to ensure it is linked to corporate performance and to reflect responsibilities and results.

Monthly remuneration reflects responsibilities. Bonuses are determined based on consolidated operating

income for each fiscal year with comprehensive consideration given to such factors as dividends to shareholders, the level of bonuses for employees, medium and long term business performance, the past payment record, and trends at other companies.

Hino Motors does not pay bonuses to outside directors and audit & supervisory board members in view of their responsibility for supervising and monitoring management from an independent viewpoint.

<Procedure>

Monthly remuneration is determined within the limit of the ceiling for total remuneration (directors: ¥60 million monthly, audit & supervisory board members: ¥15 million monthly) determined by resolution of the Annual General Meeting of Shareholders

The amount of remuneration for each director is determined by the representative director delegated by the Board of Directors based on the criteria stipulated by the Company. The amount of remuneration for each audit & supervisory board member is determined in consultation with the audit & supervisory board. For bonuses, the total amount of bonuses to be paid to directors is first approved by resolution of the General Meeting of Shareholders, and the representative director delegated by the Board of Directors determines the amount of bonus for each director.

A meeting composed of the Chairman, the President, the Director with responsibility for personnel, and the independent director prepares a proposal to be submitted to the Board of Directors on the monthly remuneration and bonuses of the directors.

The Company has also created forums for regular reports from the accounting auditors to the outside audit & supervisory board members.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration

Decisions (Overview of Current Corporate Governance System)

1) Overview of Current System (please read in conjunction with corporate governance at Hino Motors (schematic diagram) on the last page of this document)

Hino Motors is a company that employs an Audit & Supervisory Board and has established a Board of Directors, audit & supervisory board members, an audit & supervisory board and an accounting auditor. The Company's Board of Directors is composed of 11 directors (the number as of the date of submission of this document including two outside directors as defined by Japan's Companies Act. The Company's Articles of Incorporation stipulate a maximum number of 15). The Board of Directors makes decisions on important matters of business execution and supervises the execution of duties by the directors. The Company also employs a system of senior managing officers and managing officers with the aim of streamlining the Board of Directors and flexible execution of business.

The Company has also established a Management Committee made up of full-time directors and audit & supervisory board members to deliberate on the management policies and strategies of the Company and to report information that is important for management.

Hino Motors has established a Corporate Governance Committee in response to the election of outside directors with the aim of increasing the effectiveness of corporate governance and contributing further to sustained growth and enhancement of corporate value. The Corporate Governance Committee discusses the form that the Board of Directors should take (recommendations to the Board of Directors as necessary) and shares management information with the involvement of all of the outside directors and non full-time director. In fiscal 2016, the Corporate Governance Committee met four times.

Hino Motors' Audit & Supervisory Board comprises four audit & supervisory board members (the number as of the date of submission of this document including two outside audit & supervisory board members; the Company's Articles of Incorporation stipulate a maximum number of seven). Conforming to the standards for

audits by the audit & supervisory board members stipulated by the Audit & Supervisory Board, the audit & supervisory board members communicate with the directors, the Internal Audit Department, and other employees and work to gather information and establish the audit environment in accordance with the Company's audit policy and planning. They also audit the status of Company operations and assets by attending meetings of the Board of Directors and other important meetings, hearing about the execution of duties from the directors and other employees, viewing important approval documents, visiting each business site and visiting subsidiaries inside and outside Japan, and supervise the execution of duties by the directors. The audit & supervisory board members receive reports on audit planning, the implementation and results of audits, and the status of implementation of their duties from the accounting auditors and exchange opinions in addition to striving for mutual cooperation which includes witnessing onsite audits at subsidiaries during the fiscal year and monitoring and verifying the maintenance of independence and the performance of proper auditing by the accounting auditors. They also review the Business Report, financial statements and supplementary statements, and the consolidated financial statements.

Hino Motors has also established an Audit Division. In addition to conducting audits of the development and operation of internal control systems relating to financial reporting in each department and at subsidiaries based on in-house regulations, the Audit Division seeks to enhance internal control by conducting audits of the legality, appropriateness, and efficiency of business, while urging each department and subsidiary to make the necessary improvements. The division also reports the findings of internal audits to the audit & supervisory board members as appropriate and shares information with the audit & supervisory board members and the accounting auditors in relation to audits by the audit & supervisory board members and to accounting audits.

2) Outside Directors and Outside Audit & Supervisory Board Members

To oversee the execution of duties by the directors, Hino Motors has appointed two outside directors, both of whom are independent directors, as provided for in Japan's Companies Act. The outside directors are contributing to transparent, fair, swift and resolute decision making by playing a management oversight role for important decision making by the Board of Directors as well as participating in active and constructive discussion at the Corporate Governance Committee and inspecting the business sites of Hino Motors and its affiliated companies inside and outside Japan.

To monitor the execution of duties by the directors, Hino Motors has also appointed two outside audit & supervisory board members, both whom are independent audit & supervisory board members, as provided for in Japan's Companies Act. The Company considers that there is an adequate management monitoring function to oversee the appropriateness and legality of management through the implementation of objective audits in partnership with the two full-time audit & supervisory board members.

Hino Motors makes efforts on collaboration so that the supervisory and audit functions operate fully by establishing forums for the exchange of information between the outside directors and outside audit & supervisory board members and the Representative Director in addition to providing information on important matters, including providing explanations in advance of proposals to be submitted to the Board of Directors.

The outside audit & supervisory board members work to achieve mutual communication with the full-time audit & supervisory board members, the directors, and other employees, and they attend the audit & supervisory board members' meetings to hear about the execution of duties and internal audits from the directors and other employees. In addition, as a rule, a meeting of the Audit & Supervisory Board is held before a meeting of the Board of Directors is convened. Thus, the audit & supervisory board members in attendance, including the outside audit & supervisory board members, check the proposals to be submitted to the Board of Directors to conduct a preliminary review.

3) Agreements to Limit Liability
