The corporate governance system at LIXIL Group Corporation is described below.

I. Basic Philosophy Regarding Corporate Governance, and Other Basic Information Regarding Corporate Profile and Capital Structure

1. Basic Views

1 . Fundamental Philosophy

LIXIL Group Corporation (“the Company”) constantly strives to build the best possible corporate governance system needed to realize its belief that publicizing and implementing its group management philosophy throughout the Company and all of its subsidiaries and affiliates ("the Group") will enable it to achieve the maximum sustainable improvement of corporate value. LIXIL Group Management Philosophy is as disclosed in the following website.

<http://www.lixil.com/en/about/values.html>

Under the Company, a pure holding company, the Group aims to optimize the whole by maintaining cooperation between each operating company. The Group has adopted the following fundamental framework and has undertaken initiatives to strengthen and enhance corporate governance in order to maintain the Group's standing as a corporate group that inspires confidence through the creation and provision of attractive value to its stakeholders.

(1) Company with a Nominating Committee, etc.

The Company has adopted the governance format of a "company with a nominating committee, etc." with the aim of clearly separating its executive and supervisory functions, thereby enabling executive officers to make swift and decisive business decisions, and ensuring management transparency.

(2) Enhancement of Functions by Through the Use of Optional Structures

In addition to the committees and structures which are legally required for a company with a nominating committee, etc., the Company has established an Executive Officers Meeting and other optional bodies.

(3) Implementation of a Uniform Corporate Governance System Across the Entire Group

By setting forth the LIXIL Values (Shared Values) and the LIXIL Group Code of Conduct, and group-wide financial and accounting management policies, having the entire Group comply therewith, and putting in place a uniform compliance system across the Group, the Company strives to spread the core elements of its corporate governance system to the entire globalized corporate group.

[Reasons for Non-compliance with Certain Principles of the Corporate Governance Code]

At the December 2015 meeting of the Board of Directors, the Company approved LIXIL Group's Corporate Governance Guidelines (the "Guidelines"), which outline the Company's basic approach to corporate governance. (Please note that these Corporate Governance Guidelines include certain provisions which have not yet taken effect, or for which implementation is incomplete. For details, please refer to the Supplementary Provisions of the Guidelines.)
http://www.lixil.com/en/about/governance/pdf/cor_governance_guidelines20160215_e.pdf

Although the second sentence of Principle 1-4 states that the subject of verification is the "Board of Directors," in light of the fact that the Company is a company with a nominating committee, etc., we believe it is more appropriate for the subject of verification to be the "Executive Officers Meeting."

[Disclosure Based on the Principles of the Corporate Governance Code]

Because the Company's Guidelines contain provisions with regard to many of the disclosure items below, where relevant a note has been added referring to the related provision in the Guidelines.
http://www.lixil.com/en/about/governance/pdf/cor_governance_guidelines20160215_e.pdf

Article 8 of the Guidelines sets forth the policy regarding such holdings and procedures for the sale of such shares, and other such matters. When the Company exercises voting rights of such shares, it does so in a manner that contributes to the purpose of those cross-shareholdings, which is to increase the Company's corporate value by strengthening transaction relationships.

[Principle 1-7 Framework of Procedures Regarding Related Party Transactions]

As for the procedures and framework for related party transactions by the Company's officers, "Rules of the Board of Directors" stipulates that all related party transactions are required to be approved by the Board of Directors. In addition, "Rules of the Board of Directors" provides that criteria to follow for each transaction explicitly and systems to prevent related transactions executed to benefit himself or herself or the third party, impairing shareholders common interests (Article 10 of the Guidelines).

[Supplementary Principle 4-11③ Analysis of the Effectiveness of the Board of Directors as a Whole, and Disclosure of a Summary of the Results]

The Company conducts a self-evaluation of the effectiveness of the Board of Directors by each director annually. In fiscal year ended March 2017, the Company collected questionnaires from each director about the current status and practices of the Board of Directors, such as the composition, operation and agendas of the Board as well as the supporting systems. Analysis and

evaluation of the effectiveness of the Board of Directors were conducted based on the results of the collected answers, and which were discussed in a meeting where all directors attended.
