3. Reasons for Revisions

Sharing profits with our shareholders is job one at MinebeaMitsumi. That's why our basic dividend policy gives priority to enhancing equity efficiency and improving returns to our shareholders. Dividends, while reflecting performance, are determined in light of the overall business environment and with an eye to maintaining a stable and continuous distribution of profits.

Working in line with our basic policy, we have increased the interim dividend by 1 yen from what it was last fiscal year to make it 14 yen per share. While we plan to increase the year-end dividend 1 yen over what it was last fiscal year and make it 14 yen per share, we will finalize the amount in light of our performance for this fiscal year with the aim of achieving a consolidated-basis dividend payout ratio of around 20%.

(Note) The forecasts contained in this press release are made based on the information available as of the date of the announcement and may differ from the forecasts due to a variety of factors in the days to come.
