The corporate governance of Mitsui & Co., Ltd. (the “Company” or “Mitsui”) is described below.

### **I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information**

#### **1. Basic Views**

[Basic Corporate Governance Policy]

In structuring the corporate governance framework, Mitsui places emphasis on “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.”

For the “improved transparency and accountability,” Mitsui ensures sound supervision and monitoring of management with the view point of External Directors and External Audit & Supervisory Board Members (hereinafter referred to as the “external members”). Mitsui has also established an internal control system for disclosure so that all executives and employees fulfill their accountability to stakeholders under the principle of fair disclosure. For “the clarification of the division of roles between the oversight activities and executive activities of the management,” Mitsui delegates execution of business to Managing Officers substantially while the Board of Directors retains a supervisory role over Managing Officers’ business activities. Chief Operating Officers of 16 business units within headquarters and 3 regional business units serve concurrently as Managing Officers and engage in business operation for the consolidated group in a responsive and flexible manner.

While increasing the effectiveness of supervisory functions by having Audit & Supervisory Board Members, Mitsui implements corporate governance by maintaining an Audit & Supervisory Board system because it believes that having internal Directors who are familiar with our business practices and operations is essential to the business of a general trading company. By adopting a Committee System in which external members participate, Mitsui achieves highly effective corporate governance to secure “improved transparency and accountability” and “the clarification of the division of roles between the oversight activities and executive activities of the management.” In order to realize effective corporate governance for shareholders and other stakeholders, Mitsui has established, and maintains, the following structures:

(a) The Board of Directors is the highest authority for execution of business and supervision, and in order to secure this function, Mitsui has set the number of Directors to the maximum number that permits substantial discussions. As advisory committees to the Board of Directors, Mitsui also has in place the Governance Committee, the Nomination Committee and the Remuneration Committee, in which External Directors and/or External Audit & Supervisory Board Members participate as members.

(b) The Audit & Supervisory Board Members supervise the Directors’ execution of duties as an independent institution with the mandate of the shareholders. For this purpose, Audit & Supervisory Board Members carry out multi-faceted, effective audit activities such as attending important internal meetings, verifying reports and investigating our business, and take necessary measures in a timely manner.

Regarding Mitsui's basic views and policies on Corporate Governance, we published "Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles" on Company's website as follows.

(Notes)

"External Director", "Audit & Supervisory Board Member" and "External Audit & Supervisory Board Member" are used in the same sense of "External Director", "*Kansayaku*" and "External *Kansayaku*" in the heading of the format of this Corporate Governance Report respectively. Further, "Independent Director" is an External Director who is unlikely to have conflicts of interest with general shareholders, as stipulated by the Tokyo Stock Exchange.

#### [Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Mitsui complies with all Principles of the Corporate Governance Code.

#### [Disclosure Based on the Principles of the Corporate Governance Code]

UPDATED

[Principle 1.4 Cross-Shareholdings]

##### ■ Policy related to acquisition and holding of cross-shareholdings

Mitsui defines listed shares held for reasons other than purely for investment returns as cross-shareholdings. Cross-shareholdings here include not only mutual shareholdings but also unilateral ones. These are acquired and held in accordance with the following policy.

- (1) The purpose of cross-shareholdings in investees for which the equity-method is applicable is to improve the corporate value of the investees and increase equity-method based profit and dividends to be received through participation in the management of the investees. Cross-shareholdings in companies other than equity-method applicable investees (including deemed shareholdings) will be categorized as "listed shares for general investment purposes" and regarded as a means of creating business opportunities and building, maintaining, or strengthening business and collaborative relationships.
- (2) Investments in the shares of equity-method applicable companies are implemented only in cases where the economic rationale is recognizable. At the same time, each year the Board of Directors shall review the meaning of and policy on holding such shares, including a verification of the rationale in relation to our cost of capital, within the framework of portfolio reviews that are carried out in relation to investment assets generally, including unlisted shares. If the meaning of holding these assets has significantly declined, a policy toward withdrawal shall be set out.
- (3) When acquiring listed shares for general investment purposes, the Company shall conduct a prior stringent assessment of the probability of the investment creating business opportunities, or building, maintaining, or strengthening business and collaborative relationships. At the same time, each year, the Board of Directors shall review the meaning of and policy on holding listed shares for general investment purposes by verifying the economic rationale based on the status of dividends, business-related profits, and other related profits, in comparison to our cost of capital, and verification of qualitative aspects based on the status of and outlook for the creation of business opportunities, as well as business and collaborative relationship with each cross-shareholding investee. If as a result of this review the meaning of holding these assets has significantly declined, our policy is sell such assets thereby reducing the cross-shareholdings.

##### ■ Result of verification at Board of Directors meeting

Details of verification by the Board of Directors concerning the cross-shareholdings as of March 31, 2018 are as follows.

Equity-method applicable investees:

With regard to every individual stock, checked if it falls under the exit criteria specified within the Company, consisting of the profitability and qualitative criteria. As a result, we confirmed the policy as to whether to hold, exit or continue to temporarily hold to watch those stock that fall under the exit criteria.

Listed shares for general investment purposes:

As far as economic rationality is concerned, confirmed that the related profit exceeds our cost of capital in about half of the individual stocks as a result of verification of the related profit situation, including dividends and related trading profit compared with our cost of capital vis-à-vis the amount shown in the balance sheet at the end of the term for every individual stock. At the same time, verified and confirmed the qualitative rationale for holding every individual stock. Confirmed the stocks where future sale will be considered as a result of a lessening of the rationale for holding based on both

qualitative and quantitative aspects.

■ Policy on the exercise of voting rights

With respect to the exercise of voting rights of listed shares held by the Company, the content of each proposal shall be considered in relation to the management policies and business plans, etc., of the investee, and deliberation shall be conducted on a case-by-case basis by taking into consideration comprehensively from the perspectives of (1) whether or not the proposal contribute to enhancing corporate value of the investee or mutual benefit of the shareholders, and (2) the impact that the proposal may have on the enhancement of the corporate value of the Company in terms of the creation of business opportunities, and building, maintenance, and strengthening of business and collaborative relationship between the investee and the Company.

[Principle 1.7 Related party transactions]

Mitsui seeks for resolution of the Board of Directors concerning transactions between the Company and a Director, Managing Officer or major shareholder in accordance with laws and regulations and the Internal Regulations on Matters to Be Resolved or Reported at the Meeting of the Board of Directors, and reports periodically to the Board of Directors on important transactions with subsidiaries and associated companies.

[Principle 2.6 Roles of Corporate Pension Funds as Asset Owners]

Mitsui's corporate pension fund ("Corporate Pension Fund") is managed with the aim of securing the profit needed to ensure the disbursement of pensions and lump-sum payments, and building up quality pension assets. Mitsui assigns people with the specialist knowledge and appropriate qualities deemed necessary to manage the pension fund in line with said objectives. The Corporate Pension Fund has established an asset management committee. Pension assets are managed based on the deliberations by the asset management committee and in accordance with the subsequent decisions of the Board of Directors and board of trustees. For the asset management committee and board of trustees, Mitsui has assigned personnel with appropriate qualities for the task, such as its officers and employees engaged in such areas as human resource management, financial management, accounting, risk management, and legal affairs. At the same time, by assigning employees who represent the fund subscribers, it has created frameworks to carry out various tasks, such as the formulation of basic fund management policies, the allocation of basic assets based on certain strategies, the selection and assessment of fund management institutions, and monitoring of the fund management status. They have assigned people, such as officers or employees, who are from Mitsui, to also properly manage the issue of conflicts of interest between the Corporate Pension Fund beneficiaries and the Company with regard to the formulation and administration of these organizational frameworks. The Corporate Pension Fund possesses assets, such as investment trusts and pension insurance, in accordance with the basic fund management policy and strategic allocation policy of base assets, and entrusts the fund management with contract fund management institutions by providing contract institutions with these fund management guidelines. [Supplementary Principle 4.1.1 Scope and content of the matters delegated to the management]

Apart from deciding basic policy related to Mitsui management, items related to important operational execution, and items authorized by resolutions of the General Meetings of Shareholders, the Board of Directors decides items provided for in laws and regulations along with the Company Articles of Incorporation, in line with Internal Regulations on Matters to Be Resolved or Reported at the Meeting of the Board of Directors. Moreover, by receiving reports on items provided for in laws and regulations and

the status of the execution of important operations, the Board of Directors oversees the execution of duties by the management headed by the President, who serves as Chief Executive Officer.

Based on the basic design of internal controls provided for by the Board of Directors, the management assumes the role and responsibility of maintaining, operating and assessing internal controls at Mitsui and Mitsui affiliated companies.

Mitsui adopts a Managing Officer system so that Directors perform their management duties in an efficient manner. Managing Officers are appointed by the Board of Directors and are delegated authority by the Board of Directors.

Mitsui's product-based Head Office Business Unit are aligned to its products and services, with Regional Business Units in the Americas, the EMEA (Europe, Middle East and Africa), as well as Asia Pacific, making it possible for each Chief Operating Officer to implement timely, locally-based management decisions by delegating certain authority to each of them in accordance with Mitsui's Regulations on delegation of authority. (3)-2 of the Guidelines Concerning Listed Company Compliance, etc. and meets the standards set by Mitsui for appointment as External Director, he has accordingly been appointed as an Independent Director.</p>
Izumi Kobayashi	○	<p>Supplementary Explanation of the Relationship Mitsui paid membership fees and made donations to the Japan Association of Corporate Executives, where Ms. Kobayashi has served as Vice Chairperson since April 2015, but the yearly amount paid in each of the last three fiscal years was below the standard amount for donations and aid funds (¥10 million) established by Mitsui's criteria of independence for External Officers. From the above, Mitsui has determined that there is nothing that would affect the independence of Ms. Kobayashi as External Director. Other than the above, there is no special interest between Ms. Kobayashi and Mitsui, therefore, Ms. Kobayashi is deemed to appropriately carry out her duties as the independent and neutral External Director.</p> <p>Reasons of Appointment Ms. Kobayashi has advanced expertise in organizational management and risk management for generating innovation, which she has accumulated through her experience working as the representative of private sector financial institutions and a multilateral development bank. From the above, Mitsui has determined that there is nothing that would affect the independence of Mr. Takeuchi as External Director. - At the end of the fiscal year, the Independent Auditor report to the Audit & Supervisory Board the audit procedures and results of audits on accounting and internal controls, and exchange opinions on these. During a fiscal year, the Audit & Supervisory Board Members hold monthly meetings with the Independent Auditors and receive reports from the Independent Auditors about their auditing plans, the items of focus in audits, the status of audits and other matters. In the meetings, the participants exchange information and have discussions on the execution of effective and efficient accounting audits and internal control audits.

Matters relating to Independent Directors/*Kansayaku*

1. Mitsui has submitted filings with the domestic stock exchanges on which it is listed designating all external members as Independent Directors and Independent Audit & Supervisory Board Members.

2. Policy regarding independence of external members, their function and roles

[External Directors]

- The prospective person's extensive business experience and knowledge are required to deliberate on such board meeting proposals as investments and loans, and knowledge of his or her particular area of business should be used.
- Mitsui puts great value on ensuring independence of the External Directors from Mitsui in the pursuit of their management oversight functions. Also, with a view to overseeing business operations in a way that reflects the standpoint of our diverse stakeholders, in selecting External Directors, Mitsui shall take into consideration the fields from which candidates originate, along with their gender.

Given that Mitsui is a general trading company with extensive business dealings, it has been decided to make appropriate efforts by the Board of Directors to handle likely conflicts of interest involving the prospective External Directors in individual transactions with external parties.

[External Audit & Supervisory Board Members]

The External Audit & Supervisory Board Members shall be selected with the objective of further heightening the neutrality and independence of the auditing system, and, in particular, it is expected

that the External Audit & Supervisory Board Members will give an objective voice to their auditing opinions from the standpoint of neutrality, building on such factors as independence. When selecting candidates for External Audit & Supervisory Board Members in addition to the appointment standard for Audit & Supervisory Board members stated in II.2.1 “*Corporate Governance Structure*” in this report, the Audit & Supervisory Board shall confirm that no issues with independence arise by taking into consideration such factors as relations with the company, management and important staff members.

[Criteria of independence for external members]

External Directors or External Audit & Supervisory Board Members of Mitsui who do not fall under any of the following items are to be judged to have independence.

- (1) Person who is currently or was in the past ten years an executive director, executive officer, managing officer, manager, employee, administrative officer, etc. (hereinafter referred to as “executing person”) of Mitsui or Mitsui’s consolidated subsidiaries
- (2) Person or the executing person of a corporation holding either directly or indirectly 10% or more of total number of the voting rights of Mitsui
- (3) Person whose major business partner is Mitsui or Mitsui’s consolidated subsidiaries (\*1) or the executing person of the same

- (4) Major business partner of Mitsui or Mitsui’s consolidated subsidiary (\*2) or the executing person of the same
  - \*2 If Mitsui or Mitsui’s consolidated subsidiary received from the relevant business partner the payment equivalent to 2% or more of Mitsui’s annual consolidated transaction volume in the most recent fiscal year or the relevant business partner provided Mitsui or Mitsui’s consolidated subsidiary with the money loans equivalent to 2% or more of Mitsui’s consolidated total assets, the relevant business partner is deemed to be the major business partner of Mitsui or Mitsui’s consolidated subsidiary.
- (5) Independent auditor of Mitsui or Mitsui’s consolidated subsidiary or employee, etc. of the same
- (6) Person providing professional services such as consultant, lawyer and certified public accountant who received from Mitsui monetary payment or other property benefits exceeding ¥10 million in total other than officer remuneration in the most recent fiscal year (referring to the person belonging to the organization if the one who received the relevant property is an organization such as corporation and association)

- (10) Close relatives of the person who currently falls or has fallen recently under any of (2) to (7) above (excluding the one who is not important)

### 3. Supplementary Explanation

Although Mitsui paid market research fees and so forth exceeding ¥10 million in the most recent business year to Deloitte Tohmatsu Consulting LLC, at which Mr. Mori’s eldest son was an employee until April 2017, the relevant amount of payment was less than 0.1% of Deloitte Tohmatsu Consulting LLC’s annual sales; moreover, Mr. Mori’s eldest son was in a non-managerial role, and was not involved in duties consigned by Mitsui; as such, Mr. Mori’s eldest son corresponds to a “one who is not important” defined under the Mitsui’s Criteria of Independence. From the above, Mitsui has determined that there is nothing that would affect the independence of Mr. Mori for External Audit & Supervisory Board Member. Other

than the above, there is no special interest between Mr. Mori and Mitsui, therefore, Mr. Mori is deemed to appropriately carry out his duties as the independent and neutral External Audit & Supervisory Board Member.

## Supplementary Explanation

Mitsui issues subscription rights to shares in the form of a stock option scheme as stock-based compensation with stock-price conditions as remuneration for Mitsui's Directors (excluding External Directors), having them share the benefits and risks of stock price fluctuations with shareholders and thus giving them greater motivation to make contributions to improve business performance in the medium and long term and to sustained increase in enterprise value. Eligible persons may exercise all of the subscription rights to shares only when, as the stock price conditions, Mitsui's stock price growth rate over three years from the allotment date is equal to or exceeds the TOPIX (Tokyo Stock Price Index) growth rate, and on the other hand, when such rate does not exceed the TOPIX growth rate, reflecting the degree, they may exercise only part of such subscription rights to shares allotted.

### Details of stock price conditions

1. When Mitsui's stock price growth rate\*1 is equal to or exceeds the TOPIX growth rate\*2:  
All of the subscription rights to shares granted may be exercised.

2. When Mitsui's stock price growth rate does not exceed the TOPIX growth rate:  
Only part of the subscription rights to shares granted\*3 may be exercised.

\*1 Mitsui's stock price growth rate shall be calculated by the formula below based on Mitsui's stock price growth rate for the period of three years from the allotment date to the first date of the exercise period.

A: The average closing price for Mitsui's common stock on the Tokyo Stock Exchange on each day for the three months immediately before the month in which the first date of the exercise period of the subscription rights to shares falls

B: The total amount of dividends per common share of Mitsui for the period from the allotment date to the first date of the exercise period of the subscription rights to shares

C: The average closing price for Mitsui's common stock on the Tokyo Stock Exchange on each day for the three months immediately before the month in which the allotment date falls

Mitsui's stock price growth rate = (A + B) / C

\*2 The TOPIX growth rate shall be calculated by the formula below based on the TOPIX growth rate for the period of three years from the allotment date to the first date of the exercise period.

D: The average closing price for TOPIX on the Tokyo Stock Exchange on each day for the three months immediately before the month in which the first date of the exercise period of the subscription rights to shares falls

E: The average closing price for TOPIX on the Tokyo Stock Exchange on each day for the three months immediately before the month in which the allotment date falls

TOPIX growth rate = D / E

\*3 Number of exercisable subscription rights to shares = Number of subscription rights to shares granted × (Mitsui's stock price growth rate / TOPIX growth rate)

The number of shares to be issued upon exercise of subscription rights to shares as of the date of the issuance of this report are as follows:

Policy on Determining Remuneration Amounts and Calculation Methods

Established

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

(a) Taking into consideration the result of the deliberation at the Remuneration Committee, which is chaired

by an External Director, the remuneration of Directors (excluding External Directors) is determined as a sum of fixed basic remuneration, performance-related bonuses based on the key performance indicators, and stock-based compensation stock options with stock price conditions as medium- and long-term incentive compensation. Total amount of basic remuneration to be paid to the Directors shall not exceed ¥1 billion per year (Resolved at the General Meeting of Shareholders on June 21, 2017). Total amount of bonus to be paid to the Directors (excluding External Directors) shall not exceed ¥700 million per year (the limit of ¥500 million per year has been increased by the resolution at the General Meeting of Shareholders on June 21, 2017). Total amount of stock option with stock price conditions to be paid to the Directors (excluding External Directors) shall not exceed ¥500 million per year (Resolved at the General Meeting of Shareholders on June 20, 2014).

External Directors, who are separated from business execution, are not paid performance-related bonus and stock-based compensation stock options with stock price conditions.

Directors are not paid retirement compensation.

Amount of remunerations for individual Directors are paid according to a formula deemed appropriate by the Remuneration Committee. These amounts are reported to the Board of Directors.

(b)

(i) Total amount paid in bonuses for Directors

For fiscal year ended on March 31, 2018, total amount of bonus is calculated as follows:

$$\begin{aligned} \text{Total amount of bonus} = & (\text{profit attributable to owners of the parent} \times 50\% \times 0.1\%) \\ & + (\text{core operating cash flow} \times 50\% \times 0.1\%) \end{aligned}$$

However, the total amount shall not exceed ¥700 million. If the profit attributable to owners of the parent is minus, i.e. “net loss”, and/or core operating cash flow is minus, i.e. “cash outflow”, then such item is set as 0 for the calculation.

(ii) Amount paid as individual bonuses

The total amount calculated by the method shown in (i) above is distributed to each Director in proportion to the following points, which are assigned for each position. Amounts less than ¥10,000 will be rounded off.

(Amount individually paid = total amount of bonus × position points / sum of position points)

Points by position: Chairman/President (10), Executive Vice President (7), Senior Executive Managing Officer (6), Executive Managing Officer (5)

Based on the composition of the Directors as of the date of the issuance of this report, the maximum amounts that may be paid for each position (at the limit of the total bonus amount of ¥700 million. ) are as follows:

$$\begin{aligned} \text{Chairman/President} = & \text{¥700 million} \times 10 \text{ points} / (10 \text{ points} \times 2 \text{ persons} + 7 \text{ points} \times 3 \text{ persons} + 6 \\ & \text{points} \times 2 \text{ persons} + 5 \text{ points} \times 2 \text{ person} = 63 \text{ points}) = \text{¥111.11 million} \end{aligned}$$

$$\text{Executive Vice President} = \text{¥700 million} \times 7 / 63 \text{ points} = \text{¥77.77 million}$$

$$\text{Senior Executive Managing Officer} = \text{¥700 million} \times 6 / 63 \text{ points} = \text{¥66.66 million}$$

$$\text{Executive Managing Officer} = \text{¥700 million} \times 5 / 63 \text{ points} = \text{¥55.55 million}$$

(iii) Conditions for exercise of subscription right to shares

See II.1 “*Incentive*”

(b) Each Director (excluding External Directors) is required to purchase Mitsui’s shares in an amount equivalent to at least 10% of his or her monthly remuneration but less than ¥1 million through the Mitsui Executives’ Shareholding Association.

#### IV. Matters Related to the Internal Control System

##### 1. Basic Views on Internal Control System and the Progress of System Development

Regarding internal control system and the related units, see II.2.2 "*Framework for internal control and execution of business activities*". In the construction of internal control processes, aiming to achieve the above mentioned objective of the internal control process – "Improvement of effectiveness and efficiency of operations," "Compliance with accounting standards and securing reliability of financial reporting," "Compliance with laws, rules that are equivalent to the laws, and observance of management philosophy and company rules including all codes of conduct which reflect this philosophy," and "The conservation of company assets" – the following systems are implemented.

###### 1. Risk management system

As a general trading company engaging in a wide variety of businesses, risks arising from business activities are monitored and managed by Chief Operating Officers of business units and regional business units within their authorization delegated from the management. Risks associated with our business include quantitative risks such as credit risk, market risk, business risk arising from subsidiaries'

businesses, and country risk, as well as qualitative risks such as compliance risk and operational risk. Measures taken by each business unit to manage quantitative risks include setting of position limits and loss-cut limits as well as monitoring of positions by divisions with relevant expertise. For the management of qualitative risks, the business units are obligated to observe related internal regulations. When a business unit or a regional business unit takes risks greater than the scope of authority granted to the Chief Operating Officers, it is necessary to obtain approval of the Corporate Management Committee or a Representative Director in charge, or a Senior Managing Officer in charge, depending on the importance of the case, in accordance with the standards of the internal approval system. Furthermore, as stated in II.2.1. “*Corporate Governance Structure*” as committees responsible for business execution and the internal control system, organizations such as the Portfolio Management Committee, the Internal Controls Committee, the Sustainability Committee, and the Crisis Management Headquarters establish and develop the risk management structures and handle significant risks. These committees consist of Managing Officers and the General Managers of Corporate Staff Units. With respect to the risks in the fields they are in charge of, each division of the Corporate Staff Units is responsible for surveillance of the whole Company’s positions, control within the prescribed range of their authority, and supporting the relevant Directors and Managing Officers.

## 2. Internal control over financial reporting

As a result of the termination of the SEC registration, Mitsui implements the internal control framework as stipulated in the Financial Instruments and Exchange Act of Japan from the year ended March 2012. In addition to the Company-wide discipline, Mitsui has been conducting self-assessment by units subject to evaluation and testing by an independent division concerning the effectiveness of accounting and financial closing controls, IT controls, and business process level controls. After comprehensively assessing the above, Mitsui management confirmed that internal control over financial reporting is effective for the year ended March 31, 2018.

## 3. Internal controls regarding construction and management of information systems and information security

“Information Technology (IT) policy” is declared as a basic policy for IT utilization to promote further awareness raising of employees and enhancement of IT governance. The important principles for our global group information strategy are formulated in line with the corporate management policy through the discussions at the Information Strategy Committee established pursuant to the “Rules of Information Strategy Committee.” Under the system centered around the Information Strategy Committee, we are enhancing the system of internal control including management of various possible risks such as information leakage risks through maintenance of the following rules, necessary in light of development and operation of information systems and information security.

“Rules on Information System Management”: rules on the process of procurement, introduction and operation of Information assets

“Rules on IT Security”: code of conduct for the system supervisory divisions regarding IT security

“Rules on Information Management”: basic policies in terms of information risk management system and information management

“Rules on Protection of Personal Information”: rules for the handling of personal information required for business execution (Applied only in Japan)

“Rules on Cyber Security Countermeasures”: rules for preventive measures against cyber-attacks and emergency countermeasures in the event of incident

## 4. Compliance structure

In addition to the Compliance Committee, (see II.2.1 “*Corporate Governance Structure*”), chaired by the Chief Compliance Officer, Mitsui implements a compliance management system within the regular line of management at business division and department level. Further, Compliance Supervising Officers are designated at domestic and overseas units, branch offices and others.

Mitsui has set forth the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.” (“Guidelines”) and has equivalent business conduct guidelines in place at its subsidiaries. Mitsui is striving to improve observance of the Guidelines through continuous monitoring and review. See Mitsui’s website for the “Business Conduct Guidelines for Employees and Officers of Mitsui & Co., Ltd.”

Mitsui has a total of eight whistle-blowing avenues in place, including those involving an external attorney at law and a third-party providing hotline services. Pursuant to the Whistleblower Protection Act,

Mitsui made it clear that a whistle-blower would not be subject to any recrimination or detrimental treatment by Mitsui as a result of whistle-blowing. Additionally, Mitsui makes sure that its domestic affiliated companies are also able to use the whistle-blowing avenues (external attorneys at law and a third-party providing hotline services) designated by Mitsui in order to (i) maintain a high standard of confidentiality and (ii) enable their employees to use these avenue without uneasiness. Mitsui's overseas offices and overseas affiliate companies also have whistle-blowing systems that were put in place considering applicable local laws and regional characteristics. Furthermore, Mitsui prohibits treating a whistleblower disadvantageously due to the reason of the whistleblowing itself, and will thoroughly make this a known internal fact. Any cases of violation of compliance are handled strictly, including disciplinary actions in accordance with the Employment Regulations of Mitsui & Co., Ltd.

#### 5. Specially Designated Business Management System

In response to the DPF Incident, Mitsui established the "Specially Designated Business Management System" in April 2005. Under this system, internal review of four business domains which are "Environment-related business," "Medical, Healthcare and Bioethics-related businesses," "Businesses with subsidy," and "Business harboring other unusual reputation risks" is strengthened. When examining these matters, reports from the Sustainability Committee or the Environmental Societal Advisory Committee in which external experts participate as members, or opinions from other external experts will be obtained, as necessary. In addition, Mitsui appoints consultants with insights into environmental and social risk, human rights and utilize their advice for new and existing environment-related businesses as necessary.

#### 6. Systems to secure appropriateness of operations within the corporate group

In March 2006, Mitsui established the "Mitsui & Co., Ltd. Corporate Governance and Internal Control Principles" ("Principles"). In light of other laws and regulations and to the extent reasonable, Mitsui requires its subsidiaries to develop and operate internal controls based on these Principles, and for its equity accounted investees, Mitsui coordinates with other equity participants and encourages the equity accounted investees to develop and operate similar internal controls. For internal controls to secure reliability in financial reporting, see IV.1.2. "Internal control over financial reporting" above. In addition, from its officers and employees, Mitsui appoints supervising officers for its affiliated companies and has them engage in their duties based on the "Rules on Delegation of Authority for Supervising Officers for Affiliated Companies." Also, when Mitsui deploys full-time audit & supervisory board members in major affiliated companies, Mitsui selects personnel from the Internal Auditing Division rather than from related Business Units to enhance the independence of auditing.

## 2. Basic Views on Eliminating Anti-Social Forces

1. Mitsui reacts resolutely towards antisocial forces, and will not, as a matter of principle, conduct business with antisocial forces or with parties that have relations with antisocial forces.
2. Mitsui specifies the abovementioned principle in its "Business Conduct Guidelines", and makes this thoroughly known to its officers and employees. To reject antisocial forces, and to make this a company-wide stance, insertion of a clause within contracts rejecting antisocial forces is encouraged, and by placing a response unit, a system enabling routine coordination with external professionals, such as police and lawyers, is established.

### [Outline of Timely Disclosure System]

#### 1. Internal structure relating to timely disclosure to capital markets

- (1) Mitsui has formulated principles and a basic policy and developed an internal structure relating to statutory disclosure and timely disclosure on an internal and external consolidated basis. We have also established the Disclosure Committee to examine highly urgent IR matters and formulate measures. The Disclosure Committee is a subordinate organization of the Internal Controls Committee, which is one of the key committees involved in the execution of business operations. It is chaired by the CFO, and its members are the General Managers of the relevant corporate staff divisions. The Investor Relations Division, which acts as the secretariat for the Disclosure Committee, works with IR staff assigned to corporate staff divisions and business units to prepare drafts of disclosure documents and analyze points for discussion in response to directives from the Disclosure Committee.
- (2) In its Corporate Disclosure Policy, Mitsui has defined the fundamental requirements and procedures for the disclosure of information that investors need to make appropriate decisions. This policy has been posted on the Company's website.
- (3) Mitsui has established the Investor Relations Division as the unit responsible for disclosure to investors. This Division is in charge of administrative processes relating to timely disclosure and is responsible for the monitoring and management of facts, financial data, and other information that could have a material impact on investors' decisions, and for the accurate and timely disclosure of that information.

#### 2. Facts that could have a material impact on investors' decisions

- (1) Management of information relating to timely disclosure is integrated within the Investor Relations Division, which is the unit responsible for communication with the Tokyo Stock Exchange. When disclosing important new facts, the Investor Relations Division, determines the content of the disclosure. If necessary, it first examines the information in consultation with the corporate staff divisions that make up the Disclosure Committee and consults with the Corporate Communications Division, which is responsible for interaction with the media.
- (2) If a high-level management decision is required concerning the disclosure method and timing, etc., disclosure will be carried out after deliberation by the Disclosure Committee, and, if necessary, after approval has been obtained from the Corporate Management Committee.
- (3) The Investor Relations Division monitors the progress of the executive approval process (*ringi*) in preparation for the disclosure of important information and is also responsible for day-to-day communications among internal units concerned. Internal units are required to inform the Investor Relations Division about progress on important projects through the corporate organization. To align the viewpoints of the corporate organization and frontline business units, the Investor Relations Division holds regular meetings with each business unit after the publication of quarterly financial results. The purpose of these meetings is to share information about market reactions to information disclosed at the corporate or individual business unit level, and about important disclosure items going forward.

#### 3. Information about Financial Results

Information is released each quarter after approval by the Corporate Management Committee

- (1) Management of financial information has been integrated within the Global Controller Division, and general non-financial information within the Investor Relations Division. Final responsibility for the external disclosure of Flash Reports and other information rests with the Investor Relations Division.
- (2) Before financial results are released, Flash Reports and other external disclosure documents and important disclosure items are checked by a study committee made up of the CFO and members of the Disclosure Committee.
