2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System) Updated

The Board of Directors comprises eleven members (of which four are outside directors), which in principle meets regularly once every month and holds ad hoc meetings when necessary. The Board of Directors deliberates and makes decisions on matters specified in laws and regulations and other important management issues, receives reports from each member and supervises the status of business execution. Several independent outside directors are appointed in order to strengthen the supervisory functions of the Board of Directors and secure transparency of management.

As advisory bodies to the Board of Directors, the Nomination Committee and the Remuneration Committee have been established, in which a majority of the members are independent outside directors and outside Audit & Supervisory Board members, to ensure reasonableness and transparency with regard to director nomination and determination of remuneration. Both committees each deliberate on the appropriateness of policies, procedures and systems in relation to nomination and remuneration of directors, as well as on the appropriateness of nomination of each director candidate and remuneration of each director, and deliver their

respective opinions to the Board of Directors.

The Audit & Supervisory Board comprises four members (of which two are outside members) and, as an independent body with a mandate from the shareholders, audits the execution of duties by the directors. Standing members of the Audit & Supervisory Board perform auditing from the perspective based on their business experience at the Company, while outside members perform auditing from a neutral perspective leveraging their expertise, through which the Company seeks to secure the soundness of management. In accordance with a request from the Audit & Supervisory Board members, one staff member is appointed to support the operations of the board. Of the four Audit & Supervisory Board members, Mr. Yasuhiko Hotta, standing Audit & Supervisory Board member, has many years of experience working in the Company's Accounting and Finance Department. Mr. Akihiko Minato, outside Audit & Supervisory Board member, has considerable knowledge of finance and accounting from his extensive career in the financial industry.

KPMG AZSA LLC has been appointed as an independent auditor. Neither KPMG AZSA LLC nor any of its executive members has any special interests in the Company. Further, KPMG AZSA LLC is voluntarily taking measures to ensure that involvement by any executive member does not exceed a certain period.

The Company strives to enhance the effectiveness of audits also through collaboration among the Audit & Supervisory Board members, the independent auditor and members of internal audit departments, by means of Audit & Supervisory Board members' attendance in audits conducted by the independent auditor as well as periodic and ad hoc meetings by the three parties in order to exchange information on such matters as audit policies, audit plans, the status of audit implementation and revisions to accounting systems, in order to promote close collaboration.

The Company adopts the Corporate Officer framework, the objective of which is to expedite execution of business operations based on policies determined by the Board of Directors and clarify responsibilities for the results. The twenty-five corporate officers (of which six also serve as directors) are elected by the Board of Directors, and meet monthly to report on the status of business execution for cross-divisional sharing and exchange of information. Directors who are not corporate officers may also attend Corporate Officers' meetings as needed, to provide supervision and advice on business execution.

The Corporate Management Committee is composed mainly of representative directors, executive directors and certain executive officers. The Committee deliberates on important matters to be presented to the Board of Directors, and also discusses such matters as management issues to be addressed and risks for the Company, ascertains on these matters in advance, and establishes systems for responding promptly to changes in the business environment.

Each business execution section plans an annual budget under the direction of corporate officers in line with the medium-term management plan formulated by the Board of Directors, creates an action plan and manages operations to achieve the goals.

Guided by our corporate philosophy, we strive to promote CSR and sustainability awareness throughout our organization by establishing a "CSR and Sustainability Charter" to express the Company's commitment to contributing to the realization of a sustainable society. We have also developed a company-wide cross-divisional structure by creating CSR and a Sustainability Committee, comprising primarily members of the Board of Directors and the Audit & Supervisory Board, under which specialized committees with internal control functions are established, including Risk Management Committee and Compliance Committee.

3. Reasons for Adoption of Current Corporate Governance System Updated

The Company's slogan is "With established trust and confidence inside and outside the company, we aim to contribute to the peoples of the world by creating and putting at their disposal new value for the future." Based on their understanding of the Company with this slogan, directors strive to carry out corporate governance while acting as checks on each other. The four members of the Audit & Supervisory Board including the two outside members also perform this role and seek to adequately perform governance functions for the Company by providing timely and appropriate opinions and indications.

Four of the eleven Company directors are independent outside directors. The objectives of appointing multiple, independent outside directors are to introduce outside perspectives with diverse, specialized knowledge and experience to the Board of Directors, reinforce supervisory functions, and enhance corporate governance systems even further.
