[Disclosure Based on the Principles of the Corporate Governance Code]

(1)[Principle 1.4] Policy for Strategic Equity Holdings

a. MS&AD Insurance Group Basic Policy for Reduction of Strategic Equity Holdings

Strategic equity holdings is shares held under the assumption of long-term holding for the purpose of long-term increase of asset value and maintaining and strengthening comprehensive business relationships mainly with insurance transactions with issuers, etc.

We have adopted a policy to reduce the aggregate amount of our strategic equity holdings, aiming to build a solid financial base less affected by fluctuations in stock prices and to improve the capital efficiency (Note).

The suitability of holding strategic equities is assessed from the perspective of the equity issuers' growth potential and profitability for each equity and the medium- to long-term business relationship.

If the rationale is not confirmed, we shall proceed with sales of those strategic equity holdings after obtaining the equity issuers' understanding. Otherwise, we may sell our holdings, taking into account the market environment and our business and financial strategies.

(Note) The Group's strategic equity holdings of ¥500 billion are planned to be sold over the 5 years from fiscal 2017 to fiscal 2021. We shall proceed with sales of our holdings based on the planning. The Group sold equity holdings of ¥399.9 billion by the end of fiscal 2019 and is proceeding with the plan after fiscal 2020. The balance of market value of the strategic equity holdings held by the Company as of March 31, 2020 is ¥2,124.1billion.

b. Verification of propriety of strategic equity holdings and reduction efforts

- Mitsui Sumitomo Insurance and Aioi Nissay Dowa Insurance shall examine the propriety of their strategic holdings by each equity based on profitability and balance of insurance contract as to whether the purpose of the holding is appropriate and whether the benefits and risks associated with the holding are commensurate with the capital cost. The results of these examinations shall be confirmed by MS&AD's Board of Directors.
- Based on the results of the examinations of each equity, constructive dialogue shall take place with regard to equities that do not meet the objective of the rationale and are particularly in need of improvement. The equity will continue to be held in the event that an improvement is anticipated, and sale negotiations will be entered into in the event that an improvement is not anticipated.

(15) Status of enactment of principles other than the above

- a. [Principle 1.3] Basic Capital Management Policy; [Principle 5.2] Formulation and Announcement of Management Strategy and Management Plans
 - The Group's "Vision 2021" medium-term management plan sets forth policies for financial soundness, capital efficiency and shareholder returns, while also setting out targets for profitability, capital efficiency and so on.
<https://www.ms-ad-hd.com/en/group/what/strategy/capital.html>
 - We aim to enhance corporate value by pursuing an optimal balance among financial soundness, capital efficiency and shareholder returns.
 - Financial soundness: The Group aims to ensure financial soundness equivalent to an AA rating by enhancing the capital base and controlling risks.
 - Capital efficiency: Aware of the cost of capital, we aim for a Group Adjusted ROE (Note) of 10%, a level that is on a par with that of major insurance companies in Europe and the U.S., and will optimally allocate resources in addition to growth and portfolio diversification. We estimated 7% for the cost of capital based on the capital asset pricing model (CAPM).
 - Shareholder return policy: We will return approximately 40%-60% of Group Adjusted Profit to shareholders through dividends and share buybacks.
 - One of our key strategies: Reform Portfolio

The MS&AD Insurance Group's current earnings structure is dependent on the domestic non-life insurance business. We are transforming our earnings structure into one able to steadily generate profits by working to increase geographic and business diversification in the international business and life insurance business.

- Medium-term goals: 50% of profits to come from businesses other than the domestic non-life insurance business
- Future aspiration: 50% of profits to come from international business

Moreover, the Group's risk portfolio currently has a high ratio of risk in strategic equity holdings, which cause high exposure to fluctuations in share prices. We will continue reducing strategic equity holdings in a bid to transform into a more stable risk portfolio.

- Medium- to long-term goals: Strategic equity holdings below 30% of integrated risk amount and below 10% of consolidated total assets at the end of fiscal 2021

■ Reinforce R&D

We will continue to proactively invest in R&D that addresses environmental changes and increases productivity/quality.

Note: Group Adjusted Profit and Group Adjusted ROE are the MS&AD Insurance Group's own profitability indices.

They are calculated by the following formula.

Group Adjusted Profit = consolidated net income + provision^{*2} for catastrophe loss reserve and others^{*1} – other incidental factors (amortization of goodwill and other intangible fixed assets and others) + equity in earnings of the non-consolidated Group companies

Group Adjusted ROE = Group Adjusted Profit ÷ average of beginning and ending amounts on B/S of adjusted net assets (consolidated net assets + catastrophe loss reserve and others^{*1} (remaining balance) – goodwill and other intangible fixed assets (remaining balance))

^{*1} Catastrophe reserves, contingency reserves and reserve for price fluctuation of domestic non-life insurance business and MSI Aioi Life

^{*2} Subtraction in case of reversal

b. [Principle 4.8] [Supplementary Principle 4.8.1] [Supplementary Principle 4.8.2] Independent(Outside) Directors

The Board of Directors comprises 12 members, and more than one-third of the Directors (5 members) are nominated as Independent Outside Directors.

The committee has been engaged in activities including organizing an event where female managers from different group companies gathered to learn how they can overcome unconscious bias. Some members of the committee have been appointed part-time director of affiliated companies. They are learning about management-level decision making.

In addition, the Group is creating an environment where diverse employees can continue to work and play active roles through the spread of flexible work styles effectively utilizing working hours and work space, including working from home, satellite space, shift work that enables different working hours each day, and a paid-leave system in units of half days or hours.

The Group is developing various systems to enable employees to feel a sense of job satisfaction and a sense of growth, and to work actively in good health while maintaining a work-life balance. For example, going forward we will continue to work as a Group to create an environment where employees can continue to work and to expand support measures, including through systems where employees who are not subject to transfer entailing a change of residence can change their place of employment under certain circumstances, and systems whereby employees who have retired due to life events can return to work after their retirement and systems for self-development leave.
