2. Reasons for Revisions

With regard to the forecasts for the consolidated fiscal year, owing to unclear prospects of impact from spread of COVID-19 and trade friction between the United States and China, and so on, forecasts were based on a range of upper and lower limits. Although the uncertain situation still continues, we have reviewed our consolidated full-year forecast and made the revisions based on our best estimate of current market conditions as well as our performance during the first six-month period.

(Note) The business forecasts contained in this press release are made based on information available as of the date of the announcement. The actual results may differ from the forecasts due to a variety of factors in the days to come.
