Note: (1)This statistical data covers companies listed on the 1st and 2nd Sections of the NSE whose stock prices are used to calculate  
stock price indices at the end of each month:  
We calculate the average for PER and PBR as follows: We produce “Consolidated”, figures based on Consolidated financial statements  
if companies prepare it, and Non-Consolidated financial statements if they do not prepare consolidated financial statements.  
We started a calculation of “Consolidated” from January of 2013.  
In “Non-Consolidated” figures, the companies don’t disclose the non-consolidated financial data are not covered.  
(2)Figures of Net Income and Shareholders’ Equity are based on the fixed figures during the term from March of 2015 to February of 2016.  
(3)Figures are converted on a basis of trading unit of 1,000 shares.  
(4)If the number of listed shares is changed due to the allotment to the Shareholders, public offering, conversion of Convertible Bonds  
and so forth, “Earnings Per Share” and “Net Assets Per Share” are adjusted each time accordingly.
